THIS SOCIETY will receive proposals for Life Assurance, through the undersigned, as its Agent for this City, on terms highly favorable to applicants.

Prospectuses may be had on application, together with blank forms of proposal, and such other information as parties may desire.

The following are among the advantages offered by this Institution:—

The Guarantee of a large capital securely invested.

The peculiar Benefits secured by the principle of the Loan Department.

The payment of Premiums Half-Yearly or Quarterly, by parties assured for the whole term of Life.

Thirty Days are allowed after each payment of Premium becomes due, without forfeiture of Policy.

Part of the Capital is permanently and securely invested in the United States.

Wives may insure the lives of their husbands for their own and the benefit of their children.

The assent of the Society is not necessary to a transfer of the Policy.

For all practical purposes, this Agency is essentially an American Company, strengthened by a large bona fide Capital safely invested in London; equally available to Americans as to British policy holders. All losses are settled by the New York Board, and paid by Bills drawn on the London Office. Thus the Guarantee Fund in New York remains untouched, so that in case any dispute should arise between the society and policy holders, funds are on the spot, subject to the control of our Courts.

Medical Examiners fees are paid by the Society.

IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, 1849, in the "Boston Daily Times," and other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors described in the 10th volume of the Repertory of Arts, received by Samuel Bentham, in the year 1793. A like machine was patented in this country by one Kugler some sixteen years since, and another one put up by Messrs. Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty-eight years experimenting upon these machines, not one is use is of any value for the purposes contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent. for my trouble.
JAMES G. WILSON,
Philadelphia."

May 19, 1849.

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

The Deserted Mansion.

A few years ago a picture appeared in the Exhibition of the Royal Academy, which peculiarly impressed my imagination: it represented an ancient [illegible] dwelling, surrounded by dilapidated [illegible] woods. The venerable [illegible], set in [illegible] with nettles and rubbish, the moat filled with [illegible], the gabled, broken fences, green stagnant waters, the [illegible] mouldering mansion, a [illegible] of the [illegible] architecture. The [illegible] perfect [illegible] of the [illegible] supreme desolation [illegible], filled my mind with [illegible] over the [illegible], while fancy conjured up strange, [illegible] of other days, in connection with the wild tales of other days. I could not shake off the belief that reality was portrayed on the canvas; and writing an account of the various pictures to a friend who resided in the country, I dwelt on this particular [illegible], and my [illegible] impressions respecting it. When I next received a letter from my friend, she remarked how unaccountable my [illegible] were; fancies which were, however, based on the foundation of truth.

She went on to say, that reading my letter to Mrs. L——, an old country neighbor, [illegible] that [illegible] informed her of the locality of the deserted mansion, and [illegible] of its history; the picture being [illegible] painted for Mrs. L——'s son, and the [illegible], which my friend [illegible] gave in the old lady's own words, was as follows:—

"Fifty years ago, the mansion of St. Elan's Wood was [illegible] ancient, but it was a healthful [illegible] interesting and picturesque.—The [illegible] lined the sides of the moat, [illegible] flowers clustered within its sloping [illegible], white [illegible] fluttered within the quaint [illegible] windows, and delicate climbers festooned [illegible]; terraced walks and thick holly [illegible] in trim order—fountains sparkled in the sunshine, and blushing roses bent over and [illegible] the clear gliding waters.

Fifty years ago joyous laughter resounded round the [illegible] gardens, and buoyant footsteps [illegible] the greensward; for the master of St. Elan's had brought home a bride, and friends and relatives hastened thither to offer congratulations, and to share the hospitalities of the festive season.

Lady St. Elan was a very young wife—a soft-eyed, [illegible]. Her mother had died during her daughter's infancy, and her father (an officer of [illegible] in the army) being abroad, a lady whom we shall call Sabina, by whom she had been educated, accompanied her beloved pupil, now Lady St. Elan, to this new home.

The death of Lady St. Elan's father, and the birth of a daughter eventually, mingled rejoicing and mourning together, while great anxiety was felt for the young mother, whose recovery was extremely [illegible]. The visits of eminent physicians, who were sent for from great distances, caused the [illegible] which were still entertained, even when she [illegible] roamed once more in the pleasant gardens and woods around. Alas! it was not for the poor lady's bodily health they feared; the hereditary mental malady for her family on the maternal side, but which had slumbered for two generations, again darkly shadowed forth its dread approaches. Slight, indeed, had been the warnings, yet, subtle the demonstrations of the deadly enemy, but enough to alarm the watchful husband, who was well acquainted with the facts. But the alarm passed away, the physicians came no more, and apparent health and strength, both mental and physical, were fully restored to the patient, while the sweet babe really deserved the epithets lavished on it by the delighted mother of the 'divinest baby in the world.'

During the temporary absence of her husband, on affairs of urgent business, lady St. Elan requested Sabina to sleep in her chamber at night, on the plea of timidity and loneliness; this wish was cheerfully complied with, and two or three days passed pleasantly.

St. Elan was expected to return home on the following morning, and when the friends retired to rest on the previous night, Sabina withdrew the window curtains, to gaze upon the glorious landscape which stretched far away, all bathed in silver radiance, and she soon fell into a tranquil slumber, communing with holy thoughts and [illegible] aspirations. She was suddenly awakened by a curious kind of sound in the room, accompanied by a half stifled jeering laugh. She knew not how long sleep had lulled her in oblivion, but when Sabina turned round to see from whence the sound proceeded, imagine her horror and dismay at beholding lady St. Elan standing near the door, sharpening a large knife on her slipper, looking wildly round now and then, muttering and jibing.

"Not sharp enough yet—not sharp enough yet," she exclaimed, intently pursuing her occupation.

Sabina felt instinctively, that this was no practical joke; she knew instinctively the dread reality—by the maniac's eye—by the tone of voice—and she sprang from the bed, darting towards the door. It was locked. Lady St. Elan looked cunningly up, but [illegible].

"So you thought I was so silly, did you? But I double-locked it, and threw the key out of the window; and perhaps you may spy it out in the moonshine you're so fond of admiring," pointing to an open casement at an immense height from the ground; for the apartment was at the summit of a turret, commanding an extensive view, chosen for this reason, as well as for its seclusion and repose, being far distant from the rest of the household.

Sabina was not afflicted with weak nerves, and as the full danger of her position flashed across her mind, she remembered to have heard that the human eye possesses extraordinary power to quell and keep in check all unruly passions thus terrifically displayed. She was also aware, that in a contest where mere bodily energy was concerned, her powers must prove utterly inadequate and unavailing, when brought into competition with those of the unfortunate lady during a continuance of the paroxysm. Sabina feigned a calmness which she was far from feeling at that trying moment, and though her voice trembled, yet she said, cheerfully, and with a careless air,

"I think your knife will soon be sharp enough, Lady St. Elan; what do you want it for?"

'What do you want it for?' mimicked the madwoman; 'why what should I want it for, Sabina, but to cut your throat with?'

'Well, that is an old fancy,' exclaimed Sabina, endeavoring not to scream or faint; 'but you had better sit down, for the knife is not sharp enough for that job—there's the chair. Now give me your attention while you sharpen and sharpen, and I'll sit opposite to you; for I have had such an extraordinary dream, and I want to listen to it.'

The lady looked maliciously sly, as much as to say, 'You shall not cheat me, if I do listen.' But she sat down and Sabina opposite to her, who began pouring forth a farrago of nonsense, which she pretended to have dreamt. Lady St. Elan had always been much addicted to perusing the works of romantic fiction, and this taste for the marvellous was, probably, the means of saving Sabina's life, who, during the long and awful night, never [illegible] for one moment, continuing her repetition of marvels in the 'Arabian Night's' style. The maniac sat perfectly still, with the knife in one hand, the slipper in the other, and her large eyes intently fixed on the narrator. Oh, those weary, weary hours! When, at length, repeated signals and knocks were heard at the chamber-door, as the morning sun arose, Sabina had presence of mind not to notice them, as her terrible companion appeared not to do so; but she continued her sing-song, monotonous strain, until the barrier was fairly burst open, and St. Elan himself, who had just returned, alarmed at the portentous sounds within, and accompanied by several domestics, came to the rescue.

Had Sabina moved, or screamed for help, or appeared to recognize the aid which was at hand, ere it could have reached her, the knife might have been sheathed in her heart. This knife was a foreign one of curious workmanship, usually hanging up in St. Elan's dressing-room,—and the premeditation evinced in thus secreting it, was a mystery never to be solved. Sabina's hair, which was black as the raven's wing, when she retired to rest on this fearful night, had changed to the similitude of extreme age when they found her in the morning. Lady St. Elan never recovered this shock, and total overthrow of reason, but died—alas! it was rumored by her own hand—within two years afterwards. The infant heiress was entrusted to the guidance of her mother's friend and governess; she became an orphan at an early age, and on completing her twenty-first year was uncontrolled mistress of the fortune and estates of her ancestors.

But long ere that period arrived, a serious question had arisen in Sabina's mind respecting the duty and expediency of informing Mary St. Elan what her true position was, and gently imparting the knowledge of that visitation overshadowing the destinies of her race. It was true that in her individual case the catastrophe might be warded off, while on the other hand, there was lurking, threatening danger; but a high religious principle seemed to demand a sacrifice, or self-immolation, in order to prevent the possibility of a perpetuation of the direful malady.

Sabina felt assured that were her noble-hearted pupil once to learn the facts, there would be no hesitation on her part in strictly adhering to the prescribed line of right; it was a bitter task for Sabina to undertake, but she did not shrink from performing it when her resolution became matured, and her scruples settled into decision, founded on the solid basis of duty to God and man. Sabina afterwards knew that the sacrifice demanded of Mary St. Elan was far more heroic than she had contemplated; and when that sweet young creature devoted herself to a life of celibacy, Sabina did not know that, engrossed by 'first love,' of which [illegible] has been said and sung, Mary St. Elan bade adieu to her life's hope and happiness.

With a woman's delicate perception and depth of pity, Sabina gained that knowledge; and with honor [illegible], she silently read the treasured secrets of the gentle heart thus fatally wounded—the evil from which she had sedulously striven to guard her pupil, had not been successfully averted—Mary St. Elan had already given away her guileless heart. But her sorrows were not doomed to last; for soon after that period, when the law announced her free from control respecting her worldly affairs, the last of the St. Elans passed peacefully away to a better world, bequeathing the mansion-house and estate of St. Elan's Wood to Sabina and her heirs.

In Sabina's estimation, however, this munificent gift was as the "price of blood;" as but for *her* instrumentality, the fatal knowledge would not have been imparted; but for *her* the ancestral woods and pleasant home might have descended to children's children in the St. Elan's line—stained, indeed, and doomed; but now the race was extinct.

There were many persons who laughed at Sabina's sensitive feelings on this subject, which they could not understand; and even well-meaning, pious folk, thought she carried her strict notions 'too far.' Yet Sabina remains immovable; nor would she ever consent that the wealth thus left should be enjoyed by her or hers.

Thus the deserted mansion still remains unclaimed, though it will not be long ere it is appropriated to the useful and benevolent purpose specified in Mary St. Elan's will—namely, failing Sabina and her issue, to be converted into a lunatic asylum—a kind of lunatic almshouse for decayed gentlewomen, who, with the requisite qualifications, will here find refuge from the double storms of life assailing them, poor souls! both from within and without."

"But what became of Sabina, and what interest has your son in this picture?" asked my friend of old Mrs. L——, as that venerable lady concluded her narration; "[illegible] live to claim the property, why does it remain thus?"

"Your justifiable curiosity shall be gratified, my dear," responded the kindly dame. "Look at my hair—it did not turn white from age; I retired to rest one night with glossy braids, black as the raven's wing, and they found me in the morning as you now behold me? Yes, it is even so; and you no longer wonder that Sabina's son desired to possess this identical painting; my pilgrimage is drawing to its close, protracted as it has been beyond the allotted span—but, according to the tenor of the aforesaid will, the mansion and estate of St. Elan must remain as they now stand, until I am no more; while the accumulated funds will amply endow the excellent charity. Were my son less honorable or scrupulous, he might, of course, claim the property on my decease; but respect for his mother's memory, with firm adherence to her principles, will keep him, with God's blessing, from yielding to temptation. He is not a rich man, but with proud humility he may gaze on this memorial picture, and hand it down to posterity with the traditionary lore attached; and may none of our descendants ever lament the use which will be made, nor covet the possession, of this deserted mansion."

OFFICIAL PAPER OF THE CITY.

VOTE OF OUR CITY.

The full returns of Tuesday's election, so far as our City is concerned, show the following vote for Governor:

FARWELL (Whig) 2075, UPHAM (dem.) 1142—majority for Farwell 632! At the last State election, in 1849, the City vote stood thus:—DEWEY (dem.) 1377; COLLINS (Whig) 528; CHASE (F. S.) 107; majority for DEWEY over both 742. This makes the *net* gain in this city alone 1374!

The State Superintendent, Mr. LORD (Ind.) receives 2452 votes and Mr. LADD (dem.) 963—majority for LORD 1500. With such a *start*, it is tolerably safe to assume that Mr. Lord is elected by a very flattering and decisive vote.

Of the City Assembly Districts, the Whig candidates are successful in *three* out of the four, Mr CAIN being elected, from the First Ward, by 23 majority; Mr. PHELPS, from the Second, by 261, and Mr. BURNHAM, from the Fourth and Fifth, by 190. This is a gain of *three* Members since last year. Our friend GRAHAM, who is elected from the Third Ward, attributes his lucky escape from the general wreck to the fact that there was nobody running against him!

Stealing our Thunder.

WHIG PLATFORM.—As the whigs propose no specific line of conduct, should they happen to succeed, we may sum up their platform as follows:

Resolved, That the locos have control of the public offices.—*Madison Argus.*

We protest against the above felonious act. It is not only flat burglary, but abuse of the stolen property.

Some weeks ago, in an earnest endeavor to define the platform of the New York Locos, as established at Syracuse, we stated it as follows:

Resolved, That the whigs have the control of the Canal Fund.

Resolved, That we want it.

Resolved, That we are after them.

The accuracy of this definition has been generally approved by the Whig press in New York; and the above, from the Argus, is the first attempt that we have seen to mangle its fair proportions.

"MISSING MAJORITIES"!—An anxious Democrat desires us to ask our friends of the *Commercial* what has become of their promised 500 democratic majority in the Third Ward, 400 in the First, 250 in Greenville, and 1500 to 2000 in Milwaukee County? Not having heard any thing of these majorities since the morning of the election day, our inquiring correspondent fears that they may have been lost in "the noise and confusion" of the contest. He will give a liberal reward to any gentleman who may have found and will take the trouble to leave them at the *Commercial* Office.

For the Daily Sentinel.

A QUERY.

Messrs. Editors:—

Please answer a northern loco-foco one question. Can the defeat of UPHAM be attributed to the introduction into the alphabet of that *new* "letter rip?"

Rock Co. Majorities.

The Milwaukee *Commercial Advertiser* makes an estimate of majorities in this State, and elects Mr. Upham by 6000 or 7000, and "believes that it will be more than this." In some sage speculations about the different counties, it comes down to "Old Rock," and declares that about her it "don't know what to say." If the same prudence had been observed in all other cases where its ignorance is candid, it would not have exposed itself to the ridicule of every intelligent person by talking about matters it don't know anything about under any circumstances.—*Janesville Gaz.*

OLD ROCK has come up to the expectations of all its whig friends, and exceeded them too, if our returns thus far are any indication. The *Commercial* will probably know what to say about Rock next time.

A Diversion in favor of Mr. Cross.

MR. WM. SIVYER, is an independent candidate for Assemblyman in the First Ward. It is to be regretted that a portion of the small quantity of votes which the Whig candidate will receive, are to be drawn off, thus increasing Mr. Cross' majority.—*Com'l of Tuesday.*

It is fortunate for our friend Mr. Cross, that there were no more "diversions" in his "*favor*" in the First Ward. If there had been two or three more independent candidates to "draw off" votes from the Whig ticket, Mr. Cross would have had no show at all!

Going for Upham.

We hear that many whigs around Milwaukee will go Upham for Governor.—They can't swallow the man that rides two horses at once. Too much of the circus about him. The next thing they know, he may turn a double somerset and clear himself from both of them. No doubt there are many other good whigs in other parts of the State who will help to unseat this double rider.—*Pt. Washington Blade.*

Yes! the whigs about these parts *did* "go" Upham with a vengeance!" They couldn't "swallow the man that rode two horses at once"—they couldn't.

Brutality in Italy.

The Boston *Transcript* publishes the following letter from Signor Gerni, an accomplished vocalist, well known in this country and especially in Boston, where he has participated in musical concerts. It will be seen that he has been *sentenced to the galleys for ten years for toasting the United States at a supper!*

GENOA, Monday, September 22.

The desire of seeing my family was the sole motive that guided me to these Italian shores; but, unhappily, grief, sorrow and tears were the result. You are aware how oppressive the Government has become towards the people of Lombardy, Parma and Modena. From the day of my landing, unknown to myself, I was dogged and watched. One evening I was invited to a friend's house. In compliance with the request of some ladies present, I sang several pieces. Persons who were passing under the balcony, halted to hear me, and in this way I ignorantly collected quite a crowd. The day following I was summoned to answer for not having asked permission of the police to sing; and I was dismissed with threats of arrest in the event of my repeating the offence. I thereupon decided on leaving Italy for the United States.

Having obtained my passport, and fixed the day of my departure, the evening previous thereto, a few friends assembled at a farewell supper, but among them was a Judas, who betrayed my friendship. In the social hilarity of the occasion, I proposed a toast in honor of the United States. All the company responded with high zest; when, all of a sudden, the room was assailed by the Duke's satellites, and we were all arrested, and marched off to the public prison. As the chief promoter of "the political club," as the authorities called our little gathering, I was shut up in a damp, unwholesome apartment, debarred from seeing family or friends. A trial took place, and my companions were sentenced to six months imprisonment in the fortress at M., while I was sentenced to ten years in the galleys! The tears of my mother and the intercession of relatives procured a commutation of this sentence to three years imprisonment in the fortress.

I was barbarously prevented from seeing my family—was dispossessed of my parental heritage—and exiled from the state. On the day of our removal, we were, ten of us, chained like beasts, placed in a vehicle, and conducted on the way to the place of imprisonment, about thirty miles from Modena. When near the Alps, a deluge of rain poured down, accompanied with snow, which compelled our guard, four in number, and armed with loaded muskets, to screen their faces. One of my companions noticed that the chain which confined us chafed on one of the wheels of the wagon, and was almost entirely cut through. Taking advantage of this discovery, we cautiously succeeded in loosing ourselves, and amidst the torrent of rain, that favored us, we rushed upon the guard. Two of them took to flight, and we disarmed the other two, who also fled. They afterwards returned to secure us. What the result was of the discharge of our muskets, I know not. I will simply say, that I, with four of my companions, escaped from them.

Without aid—without provisions—we wandered over mountains, and through woods—in the hope of arriving at Piedmont, a place of safety. After escaping, under cover of night, the Parmesian guard, who took us for smugglers, we at length arrived at Piedmont. We are now in Genoa, whence I hope to pass to America, with one of my companions in misfortune. Our means were exhausted during our pilgrimage, however, and God only knows when we shall be able to reach the land of liberty. Long live the United States of America! Request Mr. S. to publish in brief this account in his accredited journal, that the tyranny of our infamous oppressors may be known far and wide.

Yours, &c., G. C. GERNI

Another Whig Governor—Perhaps.

"Only three Whig Governors!" joyfully exclaim sundry opposition presses—namely, those of New York, Vermont and Tennessee. Now it happens to be true that several staunch Whig States, including Massachusetts, Rhode Island and Delaware, have now Opposition Governors—but what of it? There were scarcely half a dozen Whig Governors in all, when the Harrisburgh Convention nominated Gen. Harrison, and in due time thereafter the Electoral Votes were added up as follows:

Harrison, 234 Van Buren, 60

But though Loco-Focos, chosen by minorities of the popular vote, are now Governors of Massachusetts, Delaware and Kentucky, while others were elected on side issues, it is not true that there are but "three Whig Governors" at present, Governor Brown, of Florida, is a Whig; the Governor of Mississippi, if we mistake not, *would be* a whig, if he were not a Secessionist; and we believe Pearson B. Reading, the whig candidate, is the Governor elect of California. Let the opposition be quiet a *very* few days and we hope to show them two more whig Governors, in Massachusetts and Wisconsin. They never failed, however, to succeed in nearly all the States but New York, the year before a Presidential Election; while they have been badly beaten in two of the three Presidential contests. So they will be again!—*New York Tribune.*

If the figures come in as well as they began, we should be able to realize the hopes of the *Tribune*, and all good whigs, in the election of a Whig Governor in Wisconsin.

☛ The New York *Times* is in ecstasy in consequence of the triumphs achieved by the great Yankee nation at the Great Exhibition at Hyde Park, in London. The *Times* perpetrates the following.

We have out-yachted, out-reaped, out-safed, out-india-rubbered, out-clocked, out-biscuited, out-stoved, out-locked, and out-pressed John Bull, besides distancing all his burglars at breaking into a bank. In fact, if we had missed all the other prizes, we should at least have

"Plucked up drowned honor *by the locks*"

Correspondence of the Newark Daily Advertiser.

Interesting from Sardinia.

Genoa, Oct. 6th, 1851.

The popular King of Sardinia has been passing a week with a large body of his troops—some 15 or 20,000—on the battle ground of Marengo, near Alessandria, and about 50 miles by rail from Turin. After witnessing, or rather conducting, a series of military evolutions, he gave a sumptuous entertainment to the Municipality and the National Guard (militia) of Alessandria, and made a noble dinner speech—in which he exhorted them to cultivate self-respect, and union and harmony among all classes of the people without distinction of condition or rank, as the surest means of national growth, and the best guarantee of free institutions, for which he expressed great regard. After the prolonged cheering which followed his concluding sentences, the King returned the compliment by raising "three cheers for the Constitution!" It was truly an unaccustomed scene—a spectacle without a precedent—an example for the Kings of the earth, who would enable themselves by thus coming down from their thrones to mingle in social intercourse with their people, and making common cause with them. But Victor Emmanuel, of Sardinia, is the only Sovereign in Europe who has the head and the heart to see this, and hence his people respond with all their hearts, "God save the King!"

PREDICTIONS CONCERNING THE U. S.—The Boston *Courier* quotes some predictions in regard to the U. S., made by Gov. Pownal in 1783. He was at one time Gov. of Massachusetts. He subsequently became a member of the House of Commons, and acted against the Ministry throughout the American war. Pownall's predictions were sagacious and interesting, and have all been fulfilled.

The queerest prediction we remember to have seen about this country, was that made by a Col. Grant in the House of Commons, shortly before the news of the battle of Bunker's Hill had reached England. The Col. declared that he had served in America, and he was fully persuaded that "the Americans would not fight. They made great pretensions to religion—sung psalms—and talked politics—but they were arrant cowards, and would prove themselves such, in the event of any collision with the British forces.

A NEW ARTICLE OF COMMERCE.—A quantity of ground zinc stone, a quarry of which has been discovered in Rockbridge county, Virginia, has arrived in Richmond by the Kanawha canal en route for England. This curious stone has the remarkable quality, when finely pulverized, mixed with flaxseed oil, and spread on any surface, of returning itself into stone, by a reunion of its rock covering, or coat of mail—impervious to water and proof against fire. Its value has been well and satisfactorily tested we understand, in the neighborhood of which it was found, as a fire proof covering for roofs, &c. The proprietor of this article, Mr. J. Houghton, has caused it to be used in Europe, and with such approval as to lead to an important order for the article for the English market.—[Portsmouth Tribune.

PRICE OF WHEAT.—Immediately after the adoption of the tariff of 1849, the price of wheat, more from the remaining effect of the tariff of 1842 and local causes combined, was up to $1 and upwards. Don't our farmers remember the credit the Locofocos claimed then? How they ascribed it to the locofoco tariff of 1849? Don't you remember how emphatically they declared, and how boldly they asserted that it could not fall by any possibility below a dollar? That Tariff remains unaltered and yet sad to relate, wheat demands only 70 *cents per bushel.* Think of it farmers!

☛ The Propeller *Monticello*, lost on Lake Superior, and insured in the Columbus Insurance Co. for $20,000, proves, of course, a total loss, as the Company went down about the time the propeller did.—*Cleveland Plain Dealer.*

THE TAIL OF THE COMET

IS forty degrees in length, but so thin in substance that stars are visible through it. The marvellous tales of some nostrum-mongers are nearly as long, and quite as easily seen through.

The proprietor of *Dr. Guysott's Extract of Yellow Dock and Sarsaparilla*, however, has no occasion to resort to *such tales* in order to attract public attention.

The actual cures performed by the article, wherever it is introduced, is the basis upon which the reputation of this remedy is founded, as the hundreds of certificates of renewed hopes, health, and life, that are continually flowing in upon him, will prove.

☛ *Humbugs may flourish* for a time, but a remedy must possess rare medicinal virtues, to establish the reputation that *Dr. Guysott's Yellow Dock and Sarsaparilla* has established wherever it has been used.

General Emigration and Foreign Exchange
AGENCY.

NEW-YORK: W. & J. T. Tapscott & Co., 86 SOUTH STREET.
LIVERPOOL: W. Tapscott & Co., ST. GEORGE'S BUILDINGS.

ARRANGEMENTS FOR 1851

AS the season for emigration approaches, we beg to acquaint our friends and the public with our Arrangements for the year 1851, and would inform them, that with an increase of business—for which we are grateful—we are placed in possession of greater facilities for conducting the Emigration and Foreign Exchange Business than any other House in the World, and for which—in a great measure—we have to thank a discerning public for their continued patronage.

Since the commencement of last year a large number of magnificent ships have been added to the various popular lines for which we are the Agents, and several others are now in course of construction, all of which will be fitted up for passengers in the most superior manner, and commanded by men of long experience.

By the following List of Packets, and their dates of sailing—being six regular packets a month to and from Liverpool—four, to and from London—and two, to and from Glasgow—persons sending for their friends, or those proceeding to the "Old Country," will perceive it much to their advantage to make arrangements at our office; and as heretofore, our business in *Liverpool* will be under the personal superintendence of our Mr. W. TAPSCOTT—whose well known care and attention to passengers embarking by our line has won for him his present high reputation among the emigrating public.

LIVERPOOL PACKETS.

During the past year our Liverpool House have dispatched, in addition to the above extensive list of packets, the following well known ships, and in order to meet the wants of the emigrating public, they will continue to select such other first class vessels as may be required during the year 1851—viz:

Persons residing in the United States or Canada, who wish to send for their friends in any part of England, Ireland, Scotland, or Wales, can make necessary arrangements on application to the subscribers, and have them brought out by any of the above favorite lines of packets, or by first class merchant ships, on favorable terms, either by way of Liverpool, London, or Glasgow, and their frequency of sailing precludes the possibility of delay. Passage can also be secured from *Liverpool* to New Orleans, Baltimore, Boston, Charleston, and Savannah, *direct.*

W. Tapscott & Co., Liverpool, and on Messrs. James Bult, Son, & Co., Bankers, London, payable throughout England, Scotland, and Wales.

TO EMIGRANTS FOR THE FAR WEST.

Having the most extended arrangements for conveying passengers from New York to the Far West, of any house in the Trade, we are enabled to offer them any mode of conveyance, whether Railroad, Canal, or Steamboat, at prices as low as are usually paid for the worst possible conveyance, and with a certainty of their not being subjected to any delay or imposition on the route. Pamphlets with full descriptions of all the routes, with rates of fare for any place on the American continent—including California—can be had gratis. JOHN DWIGHT & CO'S SODA SALERATUS

MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 12 East water st.

[illegible] of the public is invited to this article as being superior to Pearlash saleratus in its effervescing quality, more durable in flavor; and is more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.

Also may be found, John Dwight & Co's

Washing & Cleansing Powders,

which will be found, on trial, a very superior article, saving much labor of washing clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works, leaving the iron perfectly dry, and not liable to rust.

CRANE'S PATENT SOAP took the First Premium at the State Fair at Janesville; also at the State Fair of the State of New York, and at the Great Fair of the American Institute. Of course it was, because it is the BEST Soap in use. "We have used CRANE'S PATENT SOAP in our families for the past eight months, and pronounce it FULLY EQUAL to its recommendations. We do not discover that it injures clothing in the least. It is the cheapest soap in use. We should not willingly do without it.

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the FOUNDRY business to their former one of Mill stone manufacturing, and are now prepared to supply the public with articles in their branch, on terms that will defy competition in every way. Strangers to the community, we do no [illegible] the full assurance that we can supply better articles than can be procured at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST

Double Oven Cooking Stove,

(Which received the First Premium at the State Fair, lately held at Janesville.)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and will take the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—knowledge that is a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, uniting all the conveniences of the stove combined with the beauties of the open grate. It is beautifully ornamented, highly finished, and the entire front being enclosed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing these stoves in the event of any of the plates getting broken, can at all times be supplied with extra ones, thus superseding the necessity of throwing away stoves, which are many times compelled to do in buying Eastern ware.

Those who are in want of any articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can offer inducements in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

PATENT

BEDSTEAD.

THE undersigned now offer to the public a new style of Bedsteads, called "HINKLEY'S PATENT SUSPENSION BED BOTTOM AND FASTENING," which possesses so many advantages, as decided superiority over every other kind now in use.

The advantages of this Patent are, first, the elasticity of the spring, the simplicity and durability of its structure, which is of greater importance, these Bedsteads are "BUG PROOF." For these reasons it is far more respectable only the first, but the cheapest Bedstead that can be used.

In commending its advantages, the proprietors only repeat the statement of competent persons in this city and elsewhere, who have tried it, and therefore have the best opportunity of judging of its merits.

FACTS WILL ALWAYS SHOW!

and when we say that one firm in New York (Troy) that manufactures and disposed over twelve [illegible] past year, TWELVE THOUSAND Bedsteads within two years, and that has extensive orders.

ONE HUNDRED THOUSAND

Have been made and sold, we need not say more, but refer to a very few of the numerous testimonials in favor of this Patent, over all others now in use. Being used in the U. S. Hotel; American House, Albany, New York, Hotel, Troy House, Troy; Mansion House, Troy; Irving Hotel, Troy; Marvin's U. S. Hotel, Saratoga; Gillet Hotel, Saratoga; Bloomers Hotel, Rochester; U. S. Hotel, Buffalo; Burnet House, Cincinnati; American House, Milwaukee; Neil House, American House, Capital House, U. S. Hotel, Buckeye House, Columbus, O.

This is not all—we received the

HIGHEST PREMIUM,

at the late Fair of Rensselaer county, N. Y., New York, Albany; State Fair, Erie county, Buffalo; Boston, Mass.; State Fair; Wayne county, O., Stark county, O., and numerous others.

MILLARD, HOLTON & CO., Proprietors of the above Patent, may be found at the Furniture Warehouse of J. F. Birchard, No. 31 Spring-st., 3 doors east of the American House, Milwaukee, where application for Rights of Towns or counties will be promptly attended to.

Persons wishing to have their bedsteads remodeled on the above plan, will please leave their orders with Mr. Birchard, or at the same place where the sale will meet with prompt attention. These Bottoms are considered preferable for Lounges or Trundle Beds, and will be inserted for the sum of $1.25.

In conclusion, we are free to state to a discerning public that after giving the above Bed Bottom a fair trial, they will afford us the benefit of this advertising, and to prove the confidence that we have in the "Patent Suspension Bed Bottom," and its success, we would respectfully give the fullest encouragement in town and country.

MILLARD, HOLTON & CO.

P. S. Any person infringing on the above Patent, will be prosecuted according to law.

A New and Valuable Improvement in Bedsteads.

We, the undersigned, citizens of Milwaukee, having examined "Hinkley's Patent Suspension Bed Bottom," believe that it is one of the best improvements of the age—we prefer it far superior in all respects, to any thing of the kind that we have heretofore known either in this or any other country. Its simplicity and durability of its structure and springs, and the elasticity and durability of its structure make it of greater importance, these Bedsteads are [illegible]

We feel, too, that for cheapness, it does not fall far short, than the common wood screw, the expense of the rope and sacking bottom being saved, and we pronounce utility it must in fact supersede all kinds heretofore used. We would cheerfully recommend this improvement to the citizens of Milwaukee, and the public generally.

THE BEST FEMALE MEDICINE KNOWN!

The peculiar weaknesses to which females are subject commonly make a great bodily exhaustion, accompanied by a depression of spirits and a state of mind. As the system declines in strength there is a loss of nervous power, and this very naturally impairs the energy of the mind and discourages the equanimity of the temper. Every candid woman who has suffered from female complaints will admit this to be the natural truth. Now, to obtain relief it is only necessary to stop the tendency to depletion and debility. This is done by renewing the fountain of health and strength, the BLOOD, and no medicine accomplishes this desirable result so speedily and completely as "Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla."

Ladies of pale complexion and consumptive habits, and such as are debilitated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and to vigor.

☞ Dr. Guysott's Improved Extract of Yellow dock and Sarsaparilla is a sure remedy for Hereditary taint.

Females, Read the Following.

NEWARK, N. J., Jan. 25.

Mr. Bennett—We take pleasure in stating that your Yellow Dock Sarsaparilla gives great satisfaction in every case. A very respectable gentleman informed me that his daughter was troubled with difficult menstruation and other [illegible] peculiar to her sex. She had not had her regular menstrual discharge for a long time; but by the use of Dr. Guysott's Yellow Dock and Sarsaparilla was radically cured. She used Townsend's and others without receiving the slightest benefit. He had one daughter die from the same cause. J. B. TRIPP & Co.

HAVANNAH, Oswego Co., May, 1848.

Mr. Bennett—Dear Sir: I purchased, a short time ago, a bottle of your Yellow Dock and Sarsaparilla for my wife. She has used for her complaint, Erysipelas and weakness, [illegible] of the Womb, etc., and it has already helped her very much. Of the Erysipelas it has effected nearly a cure. I have just purchased a second bottle, and judging from the effect of the former feel confident that it will effect a perfect cure.

Yours, very respectfully, N. COBURN.

Cure of an aggravated case of Erysipelas.

The cures performed by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla are lasting. The patient's general health continues to improve after disease is removed. Cures are recorded until time has fully tested that there can be no relapse or return of the disease.

NORWAY, Herkimer Co., Feb 1850.

Messrs. Bennett & Co.—Gents: It is with great pleasure that I write to you about the very happy effect of your Yellow Dock and Sarsaparilla upon my son, who has long been suffering under that dreadful, loathsome disease, Erysipelas, with which he was attacked in 1848, and was for several months attended by some of our best physicians, who tried their skill perseveringly for five months without any beneficial effects whatever. He became reduced to a perfect skeleton. He had ulcers from his hip down to his knee, which were continually discharging offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless—there could be nothing done to arrest those terrible gangrening ulcers. My neighbors and myself thought his dissolution near at hand. One of my neighbors, who had cured a child of scrofula with your valuable medicine, wished me to make a trial of it, and more from the restless desire to do something while life lasted, than from any hope of getting relief, I procured three bottles of your Yellow Dock and Sarsaparilla, and commenced using it, and to my astonishment, he commenced to improve before he had used the third bottle, and before he had used half a dozen bottles, he could walk out. He used in all twelve bottles during the year '49, and by October he was perfectly restored, every vestige of the disease except the scars was removed, and he remains in perfect health up to the present time. His recovery, under the blessings of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son.

Respectfully, JAMES RUSSELL.

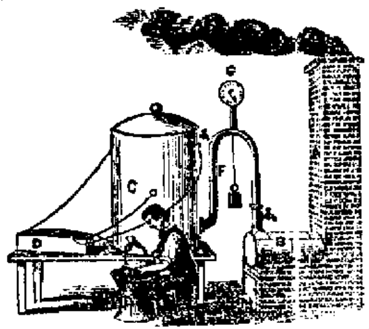
PATENT MEDICINES,



Dr. Trasks Magnetic Ointment,

CAN now be obtained in this city of S. JOHNSON, Jr. and H. Bosworth & Sons, and of one or more Druggists or Merchants in most of the cities or villages of the West. The great and increasing popularity of this remedy is mainly attributable to its controlling power over acute inflammation and nervous irritation. From the best of evidence in our possession, from Physicians, of the best standing, who have prescribed it, and from others who have been healed by it, we are satisfied that it will cure in some cases where no other known remedy will do it. This it has appeared to do in numerous cases of Chronic Sore Eyes and partial blindness, where the most eminent medical treatment had failed! For inflammatory Rheumatism, Burns, Frozen, Ulcerated sores, Scalp head, or for relief from a sudden stoppage of the pores of the skin by colds or fevers, a thorough trial will establish its claims to the confidence of the public. Our agents are supplied with circulars containing interesting details of its happy effects in many extreme cases.

☞ The attention of Physicians is respectfully called to a rigid scrutiny of the merits of this article.

TO THE PUBLIC.

THE introduction of Dr. John Bull's unequalled Sarsaparilla, has formed an era in the medical world. Its rise, progress, and the many wonderful cures it has effected, since it was introduced to the public, have been a subject of great astonishment, and even commanded the admiration of the American people. When the history of this truly wonderful medicine is known, together with the extraordinary exertions made by Dr. Bull, to make it the most valuable compound of Sarsaparilla known to the world, its rapid and unprecedented rise and progress will no longer be a theme of astonishment.

Twenty-six years since, Dr. Bull, then a boy, came to Louisville, and was employed for a number of years in studying the business of an Apothecary, with Messrs. Byers & Butler, Dr. T. E. Wilson, and the lamented L. George, Jr. After leaving the service of Dr. Wilson, Dr. Bull was employed by Dr. F. Scorch, an old and celebrated German physician of this city, and who was for many years Surgeon in the Grand Army of Napoleon. Dr. Scorch, during his life, made a fluid Extract of Sarsaparilla for the especial use of the physicians of this city, and which was considered at that time by far the most superior article made. Dr. Bull was employed by Dr. Scorch, in compounding this celebrated Sarsaparilla, and he then conceived the idea, and finally fully determined seventeen years since, to introduce at some future period, for the consideration of the afflicted, a preparation of Sarsaparilla.

Since that time, his mind has been constantly employed in studying the ingredients, and experimenting to find a complete, safe, and valuable compound of Sarsaparilla, such a one as would be acknowledged by physicians as undoubted in its efficacy, and hailed by the afflicted with demonstrations of joy. By close and unremitting study, he at last succeeded in gaining the desired end. His Extract having been several years before the public, and its merits completely tested, he confidentially appeals to the thousand certificates of its wonderful cures, and hence for its great superiority over all other similar compounds. It is therefore a matter of no surprise, that the question is frequently asked—"Why don't Dr. Bull's Sarsaparilla continue to advance in the favor and confidence of the public, when all other similar preparations, which have preceded his, have been cast aside as unworthy of the slightest notice?" Tho' it is not required, yet this question is easily answered. Dr. Bull has not worked alone for pecuniary preferment; gain has not been his sole object; he has had a higher and a nobler aim constantly in view—that of relieving the sufferings of his fellow-creatures. Unlike those who compound a good article for a short time, that they may gain a reputation, and having attained the object of their wish, reduce their article, by leaving out its most valuable ingredients, to a worthless mixture, in order to accumulate wealth. Dr. Bull has continued to use the costly ingredients, which his long study and experience enabled him to discover, and which have been of such invaluable service to suffering humanity. He seeks to gain an unspotted reputation not only for himself, but also for his renowned Sarsaparilla; and it is a fact worthy to be recorded, that every gallon of the Sarsaparilla sold by Dr. Bull is made with his own hands, and under his immediate Superintendence. For several years past, he has been daily experimenting in administering his mixtures without charge, to patients pronounced incurable; and to his eternal fame be it recorded, his efforts have been crowned with the most wonderful success. His Sarsaparilla has now gained such a wide spread reputation, and been established upon such a solid basis, that he is firmly satisfied of its undoubted merits, and confidently challenges the combined Medical skill of Europe and America to produce out of Sarsaparilla, a superior preparation to his Fluid Extract.

Dr. Bull would here like to introduce a few of the many testimonials of the wonderful effects of his Sarsaparilla; but to publish the one quarter of the astonishing cures effected by the use of this truly great Medicine, would require a volume of five hundred pages, and the Doctor has to be satisfied by offering the opinions of a few distinguished men, believing that these opinions will be sufficient to induce all who are afflicted to give Bull's Sarsaparilla a trial.

TESTIMONIALS.
Rev. E. W. Sehon—Rev. E. Stevenson.

The following is a verbatim copy of a certificate now in the possession of the proprietor of Bull's Sarsaparilla. Rev. E. W. Sehon is widely, and generally known as an eloquent and accomplished Pastor of the M. E. Church, and Rev. E. Stevenson has been known as one of the most talented and zealous members that the Kentucky Conference could boast of for many years, and at this time is filling the high and responsible station of agent for the M. E. Book Concern.—Can the world produce better, or more satisfactory testimony in favor of my medicine?

Louisville, May 20, 1849.

We have used John Bull's Sarsaparilla, and have known it to be used with entire satisfaction; and we have no hesitation in stating that we believe it to be a safe and valuable medical compound, and calculated to produce much good, and relieve much suffering; and therefore would cheerfully and most earnestly recommend it to the afflicted.

(Signed) E. W. SEHON,
E. STEVENSON.

Testimony like the following, renders superfluous all comments on the efficacy of Bull's Sarsaparilla.

From Doctor L. P. Yandell, Professor of Chemistry in the Louisville, Medical College.

I have looked over the list of ingredients composing John Bull's Compound Extract of Sarsaparilla, and have no hesitation in saying that they form a safe compound, and one that promises well in chronic diseases, to which it is applicable. L. P. YANDELL, M. D.

Louisville, June 6, 1848.

Better Testimony than was ever offered in favor of any Medicine.

From Dr. James M. Moore.

Dr. John Bull—I have no hesitation in saying, that I believe your Sarsaparilla to be the best article ever manufactured for the cure of scrofula, syphilis, and many other cutaneous and glandular affections, having used it with entire success in a number of the above cases.

Louisville, Dec. 26, 1847. J. M. MOORE, M. D.

More Testimony from Dr. Moore.

Mr. John Bull—I am using your Sarsaparilla in several new cases of scrofula, and with happy effect. I am now confident it is one of the most efficacious medicines that can be made for that disease.

What Dr. Pyles, Physician by appointment to the Louisville Marine Hospital, says of Bull's Sarsaparilla.

Louisville, March 29, 1849.

I have examined the prescription for the preparation of John Bull's Sarsaparilla, and I believe the combination to be an excellent one, and well calculated to produce an alterative impression on the system. I have used it both in public and private practice, and think it the best article of Sarsaparilla in use.

A VALUABLE DISCOVERY
FOR THE
INSTANT CURE OF PAIN.

RADWAY'S
READY RELIEF,

CURES THE WORST DISEASES IN MINUTES AND HOURS, AND STOPS THE MOST CRUEL PANGS IN SECONDS.

So quick and efficient is Radway's Ready Relief in stopping pain and curing diseases, that it has frequently raised the diseased and hopeless invalid from a bed of sickness in a few hours. It has cured the worst pains of

RHEUMATISM,	In four hours,
NEURALGIA,	In twenty minutes,
TIC DOLOREUX,	In ten minutes,
TOOTH-ACHE,	In three seconds,
SICK HEAD-ACHE,	In three seconds,
NERVOUS HEAD-ACHE,	In fifteen minutes,
SOUR STOMACH,	In five minutes,
HEART BURN,	In five minutes,
BOWEL COMPLAINTS,	In thirty-five minutes,
CRAMPS and SPRAINS,	In twenty-five minutes,
DIARRHEA,	In one hour,
INFLAMATION of the BOWELS	In thirty minutes,
LOCAL INFLAMATIONS	In ten minutes,
INFLUENZA,	In twelve hours,
HOARSENESS,	In ten hours.

Special complaints, swellings, bruises, sores, wounds, &c., it will relieve ten times quicker than any other remedy in use.

LET THOSE WHO SUFFER PAIN TRY IT!

It will prove itself in a few minutes. As soon as it is taken internally, or applied externally, its beneficial effects are seen.

IT IS BETTER THAN ALL OTHER REMEDIES.

HERE IS THE PROOF!

There is no other remedy that claims to subdue the cruel pangs of pain in seconds, minutes, or even hours. They require the patient to use dose after dose before a favorable change is promised. Not so with RADWAY'S READY RELIEF. Its effects are instantaneous; the first dose that is taken, or the first external application, commences its great work of relief from pain.

SICK HEADACHE CURED IN 20 MINUTES.

Radway's Ready Relief has cured over 90,000 cases of Sick and Nervous Headache during the past season. In the Western States where this distressing complaint is so general, Radway's Ready Relief has cured every case where it has been applied. Our agent at Romeo, Michigan, writes "Out of our Village of 1000 inhabitants, Radway's Ready Relief has cured 750 persons of Sick and Nervous Headache, Weakness, Fainting Spells—curing many of the worst cases in the incredible short time of 15 minutes. It is now surpassing every kind of Medicine we have here, in arresting pain and curing diseases of Nervous, Rheumatic, and of Bilious type."

LADIES BEDSIDE COMPANION.

Radway's Ready Relief, from its universal applicability for all Pains, Aches and Complaints incident to this country, writes our agent at Rockford, Ill., is looked upon as a God-send. "Our ladies will not even go to bed unless they have a bottle of Ready Relief within their reach; and our men will not venture out of their dwellings without a bottle of this safeguard in their pockets. It cures all Pains, and all Aches; Headache, Earache, Toothache, Backache, Eyeache, Stomachache, Pain in the Limbs, in the Joints, the Muscles, the Legs, Feet, Arms, Shoulders—wherever and whatever the pain may be, it is instantly subdued by the use, either internally or externally, of Radway's Ready Relief."

RHEUMATISM CURED IN 20 MINUTES.

It has cured Mr. T. Freely, of 679 Water-st., who was confined to his bed for nine months, who tried every Liniment, Sarsaparilla, Life Balsam of any popularity, without one hour's relief. Radway's Ready Relief stopped all the pain in twenty minutes. Mr. Freely is now in good health. It cured a lady at Clifton, Va., so writes Ray Jones of that place, "in two hours, of Chronic Rheumatism." It cured a gentleman from Sing Sing, who had the Rheumatism for Six Years, in twenty-four hours,—so says the Hudson River Chronicle, published in that place. If there be a person in this city, now suffering with Rheumatism, Neuralgia, Nervous, Tic Doloreux, who has tried all other remedies advertised, and has not been cured, we invite you to call upon us at our office, 162 Fulton st., N. Y., and we will warrant you a speedy cure.

WEAK AND ENFEEBLED, VICTIMS OF NEURALGIA.

Radway's Ready Relief possesses a far more potent power over this class of diseases, than Morphine, Quinine, Strychnine, or any other Nervine in use. It stops the pain quicker, is free from all poisonous or debilitating properties. It is entirely vegetable, and as innocent as the snow flake. More powerful than all the Nervous Antidote, mixtures of Sarsaparilla, &c., in use. Its first action is to blunt the acute sensibility of the nerves—to give strength, vigor and action to the nervous energy; to invigorate the functions and secretions of every organ in the system to a free and healthy action; to give a quickened action to the liver and tone to the stomach; to regulate the action of the bowels and secretions of the skin, and carry out of the system all morbid, poisonous and refuse humors; to give health to the body, to strengthen the nervous energy of the whole system; to change the weak, enfeebled, worn out, broken down constitution to a healthy, robust, joyful, strong and hearty being. A teaspoonful of Radway's Ready Relief, taken internally three times per day, and by applying it externally when pain is present, will do all this.

MARRIED LADIES

Should make use of Radway's Ready Relief as a bath. Its invigorating and relaxing properties softens the flesh, gives strength, elasticity and suppleness to the joints and limbs. Moreover, it is a powerful regulator of the secretions and functions of every organ in the system. Married ladies, by bathing every night with Radway's Ready Relief, at a particular period, will avoid much of the pain attending them on certain occasions.

COUGHS AND COLDS.

Radway's Ready Relief will instantly stop the most troublesome Cough. It has cured hoarseness time and again in a few hours. Taken internally, it enables the patient to expectorate freely, removes all inflammation, swelling and irritation of Bronchial organs, and by bathing externally, the neck, throat and chest, it produces a quicker action to the skin, the patient perspires freely, it removes the part from the throat and gives strength to the lungs.

ERUPTIONS OF THE SKIN.

By adding a table spoonful of Relief to a table-spoonful of Olive Oil, it will stop the most painful itching of the skin in a few minutes, and entirely cures Salt Rheum, Ring Worm, Itch, Burns, Sores, Scalds, &c.

ELEGANT TOILET REQUISITES.
To Enhance and Embellish the Charms of Beauty.

RADWAY'S MEDICATED SOAP.

Radway's Medicated Soap, so favorably known throughout the fashionable world for its extremely bland, purifying and soothing effects on the skin; while by its action on the pores and the minute secretary vessels it expels all impurities from the surface, allays every tendency to inflammation, and effectually dissipates all redness, tan, pimples, spots, freckles, discoloration and other cutaneous eruptions. The radiant bloom it imparts to the cheek, the softness and delicacy which it induces of the hands and arms, its capability of soothing irritation, and removing cutaneous defects, render it indispensable to every toilet.

Gentlemen after shaving will find it allays all irritation and tenderness of the skin, and renders it soft, smooth and pleasant.

PATENT MEDICINES.

Another Scientific Wonder!

DR. J. S. HOUGHTON'S
GREAT DYSPEPSIA CURER!

THE TRUE
DIGESTIVE FLUID,
OR
GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of Pepsin, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours out of the stomach.

PEPSIN is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.— His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John. W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed —but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of Pepsin, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER,

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation, and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

☞ **Observe this.**—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicine.

from which the above cut was taken. By it we can take the exact shape, and unerringly *fit* the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4 25; surpassing any $5 Hat sold in this city.
